## Instructions

- STEP 1: Cut two 1 ½" pieces of chain and six 1 ¾" pieces of chain. Open a jump ring and attach to one of the Terracast radiant rings and to one of the 1 ½" pieces of chain.
- STEP 2: Insert one end of the copper wire through the last link in this piece of chain and make a wrapped loop. String one Bead art. 5050 onto this wire and trim the wire to ½" of the Bead. Attach this end to one of the 1 ¾" pieces of chain and make a wrapped loop on the other end.
- STEP 3: Repeat step 2 using the Bead art. 5624, attaching it first to the end of the chain from step 2 and the other end to a new piece of 1 ¾" chain. Repeat step 2 and 3 alternating Bead art. 5050 and 5624.
- STEP 4: Attach the last 1 ½" piece of chain to the last Bead art. 5050 and attached a jump ring to the other end of the chain and to the second radiant ring.
- STEP 5: Cut the stringing wire into 4 equal lengths and set aside.
- STEP 6: Using one piece of wire, slide on a crimp bead and string the wire through one of the jump rings and back through the crimp bead. Crimp the bead, cut off excess wire and attach crimp cover over Bead. (This process should only use about ½-1" of wire.)
- STEP 7: String on all of the Crystal Pearls art. 5810 4mm Crystal Neon Pink Pearls. Repeat the crimping process from step 6 on the other end of the wire. Open the jump rings on both ends and attach to each side to one of the radiant rings that the chain is also attached to.
- STEP 8: Repeat steps 6 and 7 for the Crystal Pearl 10mm Crystal Neon Pink Pearls.
- STEP 9: Repeat steps 6 and 7 with the Crystal Pearl 6mm Crystal Neon Pink Pearls and 38 of the Beads art. 5328 Crystal Astral Pink varying the number of Crystal Pearls and Beads in the pattern desired.
- STEP 10: Repeat step 9 with the remaining Beads art. 5328 Crystal Astral Pink and the Crystal Pearls 8mm.
- STEP 11: Open one end of the classic "S" clasp if necessary just enough to slide it onto one of the radiant rings. Crimp it closed gently to secure. Open the other end of the clasp slightly if need be so it can be hooked on and off on the other radiant ring on the other end of the necklace.
